

# KHAN AMAN

Software Engineer | Full Stack Developer

Mumbai, Maharashtra

✉ amannkhan1204@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## Summary

Computer Engineering graduate with hands-on experience in full-stack web development and UI/UX design. Skilled in building responsive web applications and solving real-world problems through intuitive, user-centric solutions. Passionate about building scalable software solutions and creating intuitive digital experiences.

## Experience

### UI/UX Design Intern

Feb'26 – April'26

EVJoints

- Designed and delivered user interfaces for **15+ web pages**, while building a reusable design system to ensure visual consistency and scalable UI development.
- Collaborated closely with developers to implement responsive, user-centered designs that enhanced usability and maintained design accuracy across the platform.

## Projects

### ResumeIQ — AI Resume Analyzer & Interview Preparation Platform

[Live demo](#) | [GitHub](#)

- Built an AI-powered full-stack platform that generates **5 personalized report sections**, including ATS analysis, technical questions, behavioral questions, skill-gap analysis, and a 7-day preparation plan using **Gemini AI**.
- Integrated **JWT authentication**, PDF generation, and cloud deployment using **Vercel**, **Render**, and **MongoDB Atlas**, while validating the system with **15+ sample resumes** and multiple job descriptions to improve AI-generated feedback.

### GLOF Tracker — AI-Based Glacial Lake Outburst Flood Monitoring System

[Live demo](#) | [Figma](#) | [GitHub](#)

- Researched **6+ geospatial and environmental parameters**, including NDWI, NDVI, DEM, altitude, surface temperature, and geographic coordinates, while developing **8 responsive web pages** and integrating the frontend with backend services.
- Designed the companion mobile application prototype in **Figma** and led the project presentation before **NDMA** representatives, where the solution received positive feedback from domain experts.

### Travnir — Vacation Rental Booking Platform

[Live demo](#) | [GitHub](#)

- Developed a full-stack vacation rental platform using HTML, CSS, JavaScript, Node.js, Express, and MongoDB with secure authentication, property management, user reviews, and complete CRUD functionality.
- Implemented **6+ core features**, including property listings, image uploads, reviews, authentication, and interactive maps to display the exact location of each property with a responsive user experience.

## Skills

**Languages** Java · JavaScript · HTML5 · CSS3 · SQL

**Frontend** React.js · Tailwind CSS · EJS · Responsive Web Design

**Backend** Node.js · Express.js · Mongoose · REST APIs

**Database** MongoDB

**Tools** Git · GitHub · VS Code · Figma · Postman · Vercel · Render · Cloudinary

**Soft Skills** Problem Solving · Leadership · Team Collaboration · Communication · Adaptability

## Education

### M.H. Saboo Siddik College of Engineering

2022 – 2026

Bachelor of Engineering (Computer Engineering) | CGPA: 7.90/10

### Guru Nanak Khalsa College of Arts, Science & Commerce (Autonomous)

2020 – 2022

Higher Secondary School Certificate in Science Stream | 60.83%

### New Model English High School

2019 – 2020

Secondary School Certificate in Science Stream | 84.80%

## Achievements

- Winner** - Innovative Idea Generation Competition (IIGC 2025), EDC MHSSCE
- Finalist** - Multiple hackathons, including Mumbai Hacks and AICodex.
- PR Head** - Led communications, sponsorship outreach, and cross-team coordination for the Programmers Club, MHSSCE, ensuring successful execution of technical events.
